Steps

Step	1
Action	Hover over the Katalog button
Input data	-
Expected result	The button is underlined
Status	Passed

Step	2
Action	Hover over photo card: Modulový dům: Modul 3
Input data	-
Expected result	The photo gradually becomes darker, when hovered, it appears: Zjistit vice...
Status	Passed

TC_MMV_MODUL_020 | Displaying the main page at the appropriate screen resolutions

Status	Time	Assignee
Passed	spent00:00:18.720	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:00:18.720	Denis Novicov	-

Finish time2025-04-18 06:42:58

Steps

Step	1
Action	Open the browser and go to the main page of the web application.
Input data	https://modultest1.framer.website
Expectedresult	The main page loaded without errors
Status	Passed

Step	2
Action	Resize the browser window to 1920x1080 resolution
Input data	Manually resizing the window or using an emulator
Expectedresult	The main page is displayed correctly, all elements are visible and not distorted
Status	Passed

Step	3
Action	Resize browser window to 1366x768 resolution
Input data	Manually resizing the window or using an emulator
Expectedresult	The main page is displayed correctly, the responsive design works, and the page elements are rebuilt.
Status	Passed

Step	4
Action	Resize the browser window to 360x640 resolution
Input data	Manually resizing the window or using an emulator

Expectedr esult	The main page is displayed correctly, adaptive layout for a mobile device without loss of functionality and visual structure.
Status	Passed

TC_MMV_MODUL_026 | Fluid design check – no overlapping elements when resizing the window

Status	Time	Assignee
Passed	spent00:00:28.135	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:00:28.135	Denis Novicov	-

Finish time2025-04-18 06:43:27

Steps

Step	1
Action	Open a browser and go to the app's home page.
Input data	https://modultest1.framer.website
Expectedresult	Page loaded, content is displayed
Status	Passed

Step	2
Action	Change the browser window size gradually from maximum to minimum.
Input data	Use an emulator or manual resizing
Expectedresult	Page elements (texts, images, buttons, menus) do not overlap, remain visible and readable at all stages of resizing the window.
Status	Passed

Step	3
Action	Check the location of the main blocks (header, navigation, content, footer).
Input data	Manual inspection
Expectedresult	The arrangement of blocks is adaptive, there is no overlapping or distortion of elements, and the content does not "jump" out of the containers.
Status	Passed

Passed	spent00:00:16.679	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:00:16.679	Denis Novicov	-

Finish time2025-04-18 06:45:08

Steps

Step	1
Action	Set focus in the first form input field
Input data	поле "First name"
Expected result	Фокус установлен в поле "First name"
Status	Passed

Step	2
Action	Press the "Tab" key and watch the sequence of transitions
Input data	-
Expected result	Fields become active
Status	Passed

Step	3
Action	Make sure that the "Tab" goes through all the fields, including the submit button.
Input data	-
Expected result	Fields and the submit button are displayed correctly when switching
Status	Passed

TC_MMV_MODUL_030 | Accessibility Check - Image Alt Attributes

Status	Time	Assignee
Passed	spent00:00:32.996	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:00:32.996	Denis Novicov	-

Finish time2025-04-18 06:45:42

Steps

Step	1
Action	Open DevTools (F12) and go to the Elements tab
Input data	-
Expectedresult	The transition has been made
Status	Passed

Step	2
Action	Find images on the page (\<img>)
Input data	-
Expectedresult	Attribute Found
Status	Passed

Step	3
Action	Check the presence of the alt attribute in each image
Input data	-
Expectedresult	Attribute check performed
Status	Passed

Step	4
Action	Evaluate the content of the attribute: it should be meaningful and describe the image
Input data	-

Expectedr esult	Attribute descriptions are correct (e.g.: alt="Proces montáže zděného modulovéhodomu")
Status	Passed

TC_MMV_MODUL_036 | Checking the padding and alignment of UI elements

Results

Result 1

Status	Time	User	Defects
Failed	**spent00:00:26**	**Denis Novicov**	-

Finish time2025-04-18 06:32:47

Steps

Step	1
Action	Open website
Input data	https://modultest1.framer.website
Expected result	The main page is displayed
Status	Passed

Step	2
Action	Scroll to the "Realizace" section
Input data	-
Expected result	Cards are displayed
Status	Passed

Step	3
Action	Move the cursor over the cards
Input data	-
Expected result	The cards are smoothly turned over
Status	Failed

TC_MMV_MODUL_019 | Displaying a web page on a mobile browser for iOS

Status	Time	Assignee
Passed	spent00:01:12.351	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:01:12.351	Denis Novicov	-

Finish time2025-04-18 06:46:03

Steps

Step	1
Action	Open a mobile browser on your iOS device
Input data	https://modultest1.framer.website
Expectedresult	The page loaded without errors, the elements are adapted to the mobile interface.
Status	Passed

Step	2
Action	Check the display of the main catalog elements (product cards, menus).
Input data	Manual inspection
Expectedresult	All elements are displayed correctly, adaptive layout provides ease of navigation, buttons and links are available for clicking.
Status	Passed

TC_MMV_MODUL_018 | Displaying a web page on a mobile browser for Android

Status	Time	Assignee
Passed	spent00:00:19.280	Denis Novicov

Results

Result 1

Status	Time	User	Defects
Passed	spent00:00:19.280	Denis Novicov	-

Finish time2025-04-18 06:46:23

Steps

Step	1
Action	Open a mobile browser on your Android device
Input data	https://modultest1.framer.website
Expectedresult	The page loaded without errors, the elements are adapted to the mobile interface.
Status	Passed

Step	2
Action	Check the display of the main catalog elements (product cards, menus).
Input data	Manual inspection
Expectedresult	All elements are displayed correctly, adaptive layout provides ease of navigation, buttons and links are available for clicking.
Status	Passed

Step	3
Action	Navigate through the catalog: select a category, go to the product card.
Input data	Navigating Catalog Items
Expectedresult	The transition between pages is carried out without delays and errors, the design is saved on all transitions, and elements are correctly adapted for the mobile screen.
Status	Passed
